

FAVRE EMMA

Data Analyst Junior | Python, SQL, BI | Trilingue FR-EN-CN

Paris | +33662153729 | favre-emma@outlook.fr | [Linkedin](#) | [Portfolio](#)

Junior Data Analyst with a strong background in mathematics and a dual analytical and linguistic skill set. Proficient in data cleaning, analysis, and visualization (Python, SQL, R, BI tools). Focused on solving concrete business problems. Trilingual (French, English, Mandarin), I am currently seeking my first professional opportunity.

SKILLS

- **Data Analysis:** Python (Pandas, Matplotlib, Jupyter Notebook), SQL (MySQL, SQL Server), DAX
- **Statistics:** Predictive Modeling, Machine Learning (K-Means, C5.0 Decision Trees), Hypothesis Testing, Regression Analysis
- **BI:** Power BI (Desktop & Service), Tableau, Microsoft Excel (Advanced Modeling, Pivot Tables, VBA)
- **Data Engineering & Processing:** Power Query, Data Cleaning (CSV, JSON), GitHub

PROJECTS

Insurance Fraud Detection

- Developed a classification system (C5.0 Decision Tree) to identify fraudulent behaviors with 84% accuracy.
- Performed exploratory data analysis (EDA) and data cleaning on 1,100+ rows; conducted independence tests (Chi-square, Fisher's) for feature selection..
- Implemented K-means clustering to segment and identify distinct fraudster typologies.
- Addressed class imbalance issues and provided recommendations on False Negative management using cost-sensitive learning matrices.

User Insights Analysis – Bellabeat Case Study (Google Certification)

- Analyzed Fitbit tracker data using R (Tidyverse, Janitor) to identify business growth opportunities
- Cleaned and merged multi-source datasets, resulting in a consolidated dataset of 410 observations
- Designed Tableau dashboards to visualize correlations between physical activity, sleep quality, and caloric expenditure
- Formulated strategic recommendations based on WHO guidelines (e.g., gamification, personalized push notifications)

Financial & Commercial Dashboard – Tailwind Traders

- Performed data modeling (Sales & Profit) in Power BI, creating a robust relational data model
- Developed complex DAX measures (YTD Margin, Median Sales) and integrated currency exchange rates using Python scripts
- Performed business diagnostics: identified a critical anomaly in October 2023 (margin drop from 62% to 34%) and proposed actionable operational recommendations

EDUCATION

Université Paris Cité

Undergraduate Degree in Chinese (LLCER)

Paris, France | Sep 2024 - Juin 2026

Université Côte d'Azur

Master 1 in Mathematical Engineering

Nice, France | Sep 2023 - Juin 2024

Université Côte d'Azur

Bachelor of Science in Mathematics

Nice, France | Sep 2020 - Juin 2023

Lycée privé Saint-Barthélemy

Baccalauréat scientifique (S) , Mathematics concentration

Nice, France | 2020

CERTIFICATIONS

Microsoft Power BI Data Analyst Professional Certificate | Microsoft (July 2026)

Excel Skills for Business Certificate | Coursera (September 2025)

Google Data Analytics Professional Certificate | Macquarie University (August 2025)
